ASSEMBLY INSTRUCTIONS

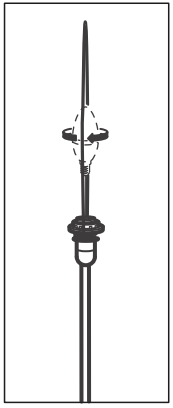

STAR TRADING

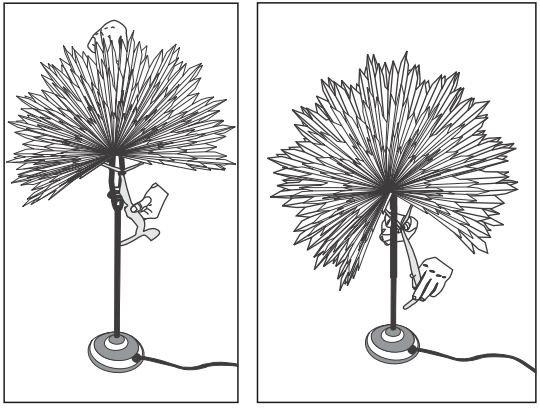

Fix the metal tube to the bottom of the base using a butterfly nut.

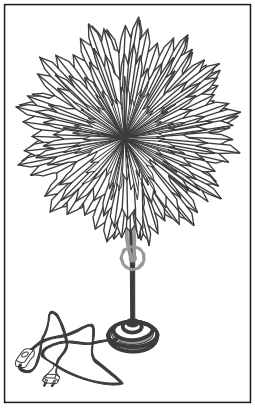

Place and fix the metal frame between the two rings on the lamp holder.

Place the light bulb (E14 socket) in the lamp holder.

Assemble the Paper Star on the light stand and close the sides around the cord. Tie the string around the cord and lamp stand keeping the star close around the metal tube.

Connect the switch to the wall socket and Standing Star is ready to use.
